BSCIT - 503 - Cyber Security

SECTION A: Long Answer Strategy (30 Marks)

VVIMP (Very Very Important) - The "Must Do" List

These questions have a 100% historical probability of appearing in your exam.

1. **What is Computer Forensics? Write a detailed note and explain the steps involved in it.**
    - **Exact Frequency:** Asked 3 times
    - **Appearances:** Aug 2024, Feb 2024, July 2025
2. **Explain the different types of PEN Testing (Penetration Testing).**
    - **Exact Frequency:** Asked 3 times
    - **Appearances:** Aug 2024, Feb 2024, July 2025

MIMP (Most Important)

These questions appear frequently and are highly likely to show up.

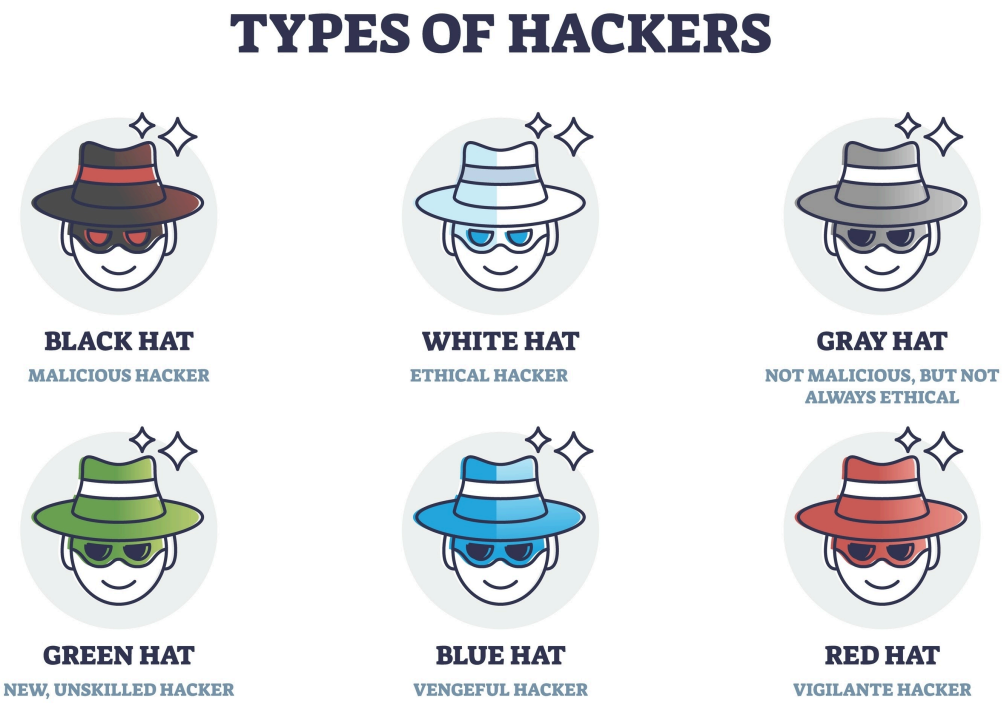

3. **Explain notable counter cyber security initiatives taken by the Government of India.**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Aug 2024, Feb 2024
4. **Explain the Classification / List out and define various types of Cyber Crimes.**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Feb 2024, July 2025
5. **What is malware? Explain the types of malwares.**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Aug 2024 (Section A), July 2025 (Section B)
6. **Explain the major issues with WLAN.**
    - **Exact Frequency:** Asked 2 times

- **Appearances:** Aug 2024 (Section A), Feb 2024 (Section B)

SECTION B: Short Answer Strategy (20 Marks)

MIMP (Most Important)

1. **What are the benefits of computer forensics?**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Aug 2024, Feb 2024
2. **What are the various types of hackers? Explain / Classify them briefly.**

- **Exact Frequency:** Asked 2 times
- **Appearances:** Aug 2024, July 2025

3. **Write a short note on / Write guidelines for Safe Internet Browsing.**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Aug 2024 (Section B), Feb 2024 (Section A)

4. **Explain Technical, legal, and administrative issues faced in computer forensics.**
    - **Exact Frequency:** Asked 2 times
    - **Appearances:** Feb 2024 (Section B), July 2025 (Section A)

SECTION C: "PAPER LEAK" LIST (Objectives / MCQs & True/False)

HIGH PROBABILITY MCQs (Repeated Across Papers)

- **Q:** NCTC stands for _____ **[High Probability]**
    - *Options:* National Counter Terrorism Center / Crime / Council
    - **CORRECT ANSWER:** National Counter Terrorism Center
- **Q:** _____ is defined as the use of computer resources to intimidate or coerce government, the civilian population in furtherance of political or social objectives. **[High Probability]**
    - *Options:* Cyber Terrorism / Computer Vandalism / Phishing / Hacking
    - **CORRECT ANSWER:** Cyber Terrorism
- **Q:** _____is a process of identifying an individual and ensuring that the individual is the same who he/she claims to be. **[High Probability]**
    - *Options:* Authorization / Authentication / Validation / Verification
    - **CORRECT ANSWER:** Authentication

OTHER HIGH-VALUE MCQs

- **Q:** An attack to the network or the computer system by some person with authorized system access is known as _____attack.
    - **CORRECT ANSWER:** Insider
- **Q:** _____ is an activity which involves injecting a malicious client-side script into a trusted website.
    - **CORRECT ANSWER:** Cross Site Scripting (XSS)
- **Q:** _____ is a technique to convert the data in unreadable form before transmitting it over the internet.
    - **CORRECT ANSWER:** Encryption

- **Q:** What is the main function of a firewall? / Shield between organization's network and internet?
    - **CORRECT ANSWER:** To block unauthorized access to a network / Firewall
- **Q:** _____does not require human intervention to travel over the network and spread from the infected machine.
    - **CORRECT ANSWER:** Worms
- **Q:** _____is a technique of hiding secret messages in a document file, image file, and program or protocol etc.
    - **CORRECT ANSWER:** Steganography
- **Q:** What is the primary purpose of ethical hacking?
    - **CORRECT ANSWER:** To help organizations strengthen their security
- **Q:** What is the primary method used in a Distributed Denial of Service (DDoS) attack?
    - **CORRECT ANSWER:** Overloading a network with excessive traffic to crash it
- **Q:** Which government body is responsible for promoting cybersecurity awareness in India?
    - **CORRECT ANSWER:** CERT-In

TRUE / FALSE (Repeated Concepts & Core Facts)

- **Firewalls / Network Security:**
    - With firewall in Windows 7 we can configure inbound and outbound rules. → **True**
    - Firewalls are not effective in preventing cyber-attacks. → **False**
    - A firewall blocks *all* incoming traffic, ensuring that no external data can enter the system. → **False** (It filters, it doesn't block *all* indiscriminately).
- **Testing & Forensics:**
    - A type of testing in which the pen tester has little or no knowledge of the target is said to be White Box testing. → **False** (This is Black Box testing).

    - All Computer forensics investigations focus on criminal behavior. → **False** (They also focus on civil/corporate cases).
    - Cyber forensics is not used in investigating online fraud or identity theft. → **False**
- **Privacy & Browsing:**
    - Your internet browser's cookies stores certain information (snapshots) of webpages you visit so that they'll load more quickly. → **False** (This describes the *Cache*, not cookies).
    - Using a browser in incognito mode guarantees complete anonymity online. → **False**
    - Using public Wi-Fi networks without a VPN increases the risk of data theft. → **True**
- **Passwords:**
    - Choose a password that you can type quickly, this reduces the chance of somebody discovering your password by looking over your shoulder. → **True**
    - It is recommended to use the same password across all accounts for convenience. → **False**
